REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 1, 53, 121, 125, 128, 146, 172 and 192.

As to claims 1, 53, 128, 146, 172 and 192, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“reducing amount of ambient absorbing gases and moisture present in at least a portion of each of the illumination and detection paths without employing a vacuum chamber, by displacing said gases and moisture with another gas that does not substantially absorb the at least one VUV wavelength component so as to reduce attenuation of the at least one VUV wavelength component, wherein the reducing includes supplying said another gas from a direction transverse to a direction normal to the surface of the sample and to at least one of the illumination and detection paths” and “determining the characteristics of the surface from said at least one output signal”**, in combination with the rest of the limitations of claims 1, 53, 128, 146, 172 and 192.

As to claims 121 and 125, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“an instrument reducing amount of ambient absorbing gases and moisture present in at least a portion of each of the illumination and detection paths by displacing said gases and moisture with another different gas so as to reduce attenuation of the at least one wavelength**

component, said instrument comprising an envelope having an opening and enclosing said optics and detector and containing a gas that contains less oxygen and moisture than those in an atmosphere surrounding said envelope and that is at a higher pressure than said atmosphere, wherein said amount is reduced by a flow of said different gas in the envelope and said opening; means for shielding the opening from the atmosphere to enhance laminar flow of the gas through the opening", in combination with the rest of the limitations of claims 121 and 125.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa Q. Pham whose telephone number is (571) 272-2426. The examiner can normally be reached on Monday through Friday, 8:00AM TO 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tarifur Chowdhury can be reached on (571) 272-2287. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
